

STATE AGENCIES

WE'VE BEEN ON BOTH SIDES OF THE TABLE - LET US HELP.

State agencies play a crucial role in delivering vital state and federal programs that benefit the public. State agencies are institutions of knowledge and history that strive to fulfill their missions and make Louisiana a better place to live. In rapidly changing times, agencies can struggle to be nimble due to their structure and the various state laws that ensure diligence. Nonetheless, agencies are constantly confronted with new requirements and initiatives to meet the changing needs of our time. It is not uncommon for a state agency to find itself in need of a special projects manager who can take on a new effort. Let us be a supplement or a substitute so that you can exceed expectations.

POLICY RESEARCH, ANALYSIS AND IMPLEMENTATION

Do you find yourself faced with a complex issue in need of a solution? Let us take on the grunt work of collecting the facts you need to make decisions and then help with implementation. Our services range from leading an effort to re-write regulations to moderating a stakeholder task force charged with solving a difficult problem, and anything in between.

COMMUNICATIONS

Do you have a skilled, busy communications team who could use some support developing a clear message on a complex issue? We are experts in breaking down complicated government agency language and delivering a relatable message to the public. Let us help improve public understanding and perception of your agency.

STRATEGIC + OPERATIONAL PLANNING

Do you develop short and/or long term plans including public construction projects or state environmental goals? Let us help revise or establish a plan that will exceed expectations.

Every state agency is charged with developing and maintaining short and long range plans to be submitted to the Division of Administration. Has it been a while since your agency took a hard look at these efforts? Let us dive in and help to modernize and enhance these plans in an achievable way.
